ZIRCONITE[®]
PROTECTION SYSTEM

Product Data Sheet

SEE-CLEAR

Nano-Technology Rain Repellent

- Nano-technology gives your automotive glass extreme hydrophobic, water repellent properties. Forms a protective non-stick barrier making glass easier to clean.
- Rain drops bead up and fall away, giving you a clear view and improving your driving visibility during harsh weather conditions
- Provides a protective barrier - bugs & insects just slide off! Forget scrubbing your windshield! Just rinse and wash with water!
- Formulated to help prevent frost and snow sticking - making removal quicker and easier.
- 4-6 Weeks durability

ZIR505100
100ml.

DIRECTIONS :

Prepare glass surface with Clay Bar, then degrease.

Divide the windscreen into 2 or 3 sections (depends on size).

Spray 5 spots of SEE-CLEAR on each section, then, using a suede finger pad, join the spots in a circular motion ensuring even coverage

Allow product to flash-off before buffing with a microfibre cloth.

Keep indoors/out of rain for at least 8 hours/overnight to allow complete drying/curing

For additional information see relevant Safety Data Sheet.
