

### STAGE 1 – PRE-GLAZE STAGE 2 – NANO-GLAZE

**Zirconite Nano Glaze:** Unique blend of PTFE and acrylic resins containing UV screens.

**Unrivalled Gloss & Protection:** Leaves a deep-gloss shine and a protective barrier for today's modern paint finishes.

**Tested to extremes:** Zirconite Nano Paint Protection system has undergone the most rigorous of development regimes, making it suitable for use in the harshest of climates and environments from Scandinavia to the Middle East.

**Low Chalk:** Minimises rubber or plastic staining – No dusting problems.

**Bodyshop Approved:** Contains no volatile silicones.

#### DIRECTIONS FOR USE.

**Prior to application** remove all scratches and holograms using the Surf-ACE Compound system.

**STAGE 1: PRE-GLAZE** - Removes wax residues and provides correct 'key' to paintwork to accept Stage-2 Nano Glaze.

**Apply section by section with soft cotton cloth.**  
**Do not wipe dry.**  
**Allow to dry out on paint surface.**

#### STAGE 2: NANO-GLAZE

Shake well before use. Apply to pre-treated area, section by section, using a clean soft cloth in a conventional polishing manner. Do not over apply or use in direct sunlight.

Treat vehicle section by section, allowing paint surface to haze, then buff to a deep shine with a dry CAP4 micro-fibre polishing cloth.

Alternatively use polishing machine with black foam mop.

**Polished surfaces should be kept dry for four hours to ensure that the initial curing phase is complete**

#### Typical Specifications:

##### STAGE 1: PRE-GLAZE

Composition : Aliphatic hydrocarbon solvent blend.  
Appearance : Clear liquid  
Colour : Water white  
S.G. : 0.77  
Odour : Mild  
F.P. : >40°C  
Shelf Life : Minimum 5 years in unopened containers at ambient temperature.

Packaging : 125ml & 1L

##### STAGE 2: NANO-GLAZE

Composition : An emulsified blend of P.T.F.E, acrylic resin, waxes, non-volatile silicones, polishing aids, non-aromatic solvents in water.

Appearance : Opaque viscous creme  
PH : 8.0  
Colour : White  
Perfume : Warm fresh  
Stability : Protect from freezing. Store at ambient temperature.  
Shelf Life : Twelve months minimum in unopened containers.  
Packaging : 125ml & 1L
